

Hot Pressed Graphite

Hot pressed graphite is made of high purity graphite and resin after hot pressing. **Hot pressed graphite** has high mechanical strength, sealing performance stability, short production cycle of features. **Hot pressed graphite** is mainly used in industries such as

auto water seal、miniature pumps.

Specifications of **Hot Pressed Graphite**

Technical Parameters	Unit	Numerical Value
Shore Hardness	HS	≥70
Porosity	%	<0.2
Volume Density	g/cm ²	≥1.75
Compressive Strength	MPa	≥150
Bending Strength	MPa	≥75
Friction Factor	F	≤0.15
Temperature Limit	°C	200

We are professional manufacturer and supplier of **hot pressed graphite** in china. We have become a leading producer of **hot pressed graphite** on the Chinese market over the past 30 years' experience. We offer many types of **hot pressed graphite** for the clients' choice. We also keep researching and developing new **hot pressed graphite** to satisfy our clients' needs. Our company has already passed the International Quality System Certification known as ISO9001:2000. We have clients in Europe, Middle East, South America and Southeast Asia. High quality products and the competitive price are the foundation and guarantee of our growing market and clients. We can manufacture the products according to the clients' demands. We are surely willing to offer you OEM (original equipment manufacture).
